E. 3-Tier Decorative Plant Stand \$21.46 Item #55081027 **F.** Water Pump Fountain* Item #53012869

Garden variety

Choose from a wide range of containers, plant up some beautiful blooms, and place them wherever you need a splash of color

A

& PRETTY POTS

THRILLER First select an attention-grabbing plant, or "thriller", as the focal point, and relate the other plants in some way. Placement is key: Plant the thriller in the center of a container viewed from all sides, or in the center back of a container against a wall.

FILLER Secondary plantings, or "filler", complement the thriller. Fillers are rounded mounds or have low-spreading shapes; plant them evenly around the thriller. For an instantly full look, use three fillers in a 14-inch pot.

SPILLER Finish with "spillers", sprawling accent plants that trail over the container's edge. Seek out plants with leaves or flowers that contrast or echo the thriller and/or filler.

NOTE: Choose container plants that share similar watering and light needs, i.e. all sun or shade.

BETTER HOMES & GARDENS®

CONTAINER BASICS

POTTING Use a potting mix specially formulated for containers, as regular garden soil may compact roots and often contains weed seeds.

WATERING Proper watering and drainage are essential for containers. Avoid overwatering: Check moisture first by poking your finger into soil, and only water if it feels dry. Choose containers with drainage holes; place saucers underneath to protect decks and floors (be sure to remove overflow to prevent root rot and soggy soil).

FERTILIZING Three weeks after planting, start using a water-soluble 15-30-15 fertilizer blend to encourage healthy growth and blooming. Only use one-fourth of the suggested amount, and reapply with every other watering.
